# WE'VE HELPED INVESTORS REACH THEIR FINANCIAL GOALS

This document is a comprehensive overview of the origin, purpose, journey, and destination of Neptrades . The paper provides information to anyone looking to become a partner or investor with Neptrades , such that they understand the values and integrity held by the investment company.

The origin of this company is simply illustrated with the need to solve the problems most investors (and investment companies) faced at the time of inception.

The purpose is thus rooted in the origin, and is explicitly introduced in the company's Vision and Mission statements found in this document and on the company's website. The journey has been highly progressive so far, with happy and satisfied clients. Even when the odds stood against us, our insurance policies ensured that our investors didn't have to suffer unnecessary losses. Our destination is that point where everyone who joins our clientele becomes convinced that we are that friendly, accessible, and result oriented company that keeps to its word.

This whitepaper is updated as we make significant strides as a company, and thus may require you to also speak with our customer care unit, marketers, or any authorized agent, partner or member of the company. We look forward to having you onboard

Where we are  
**TODAY**

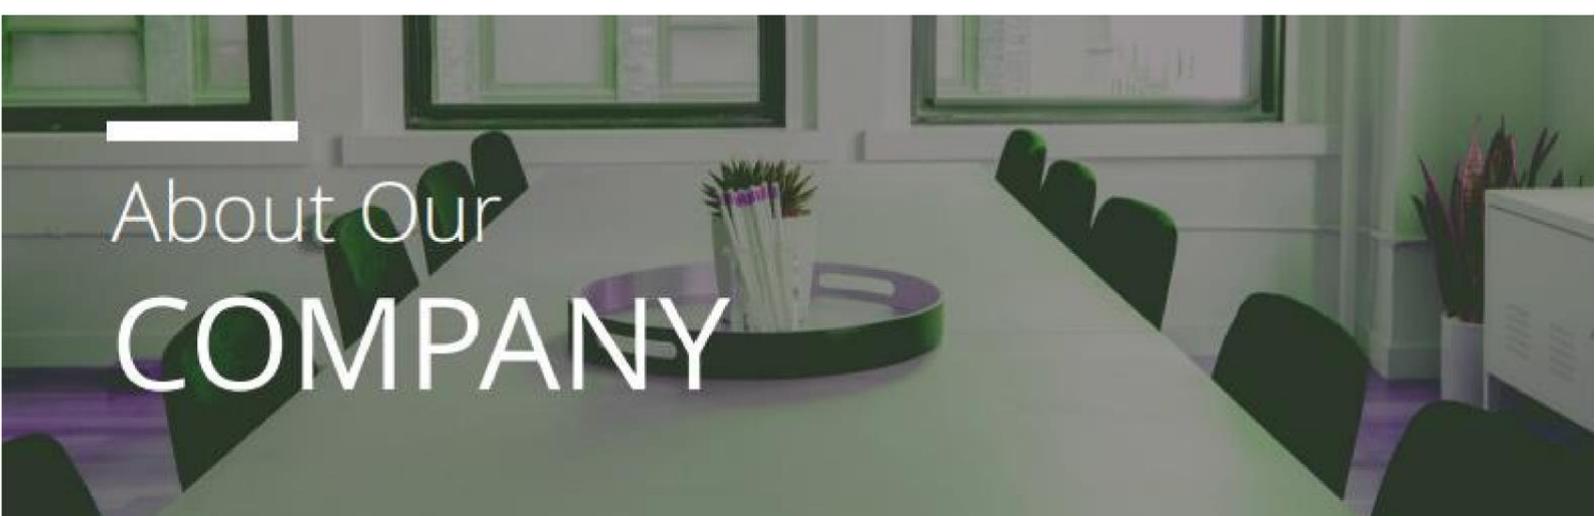

## ABOUT US

Zeniqglobals Trust Invest offers the highest liquidity available with tight spreads that allow you to trade at the price you want. With our ultra flexible plans and speedy withdrawals, you always have full control of your funds at your fingertips.

Zeniqglobals Trust Invest, we have developed an intentional culture. It's a set of values that define us, not just as individuals but as a company, working together. We believe in creativity, unity of purpose, performance, and trust. These qualities are at the heart of everything we do. It's in our DNA. It's the embodiment of our Zeniqglobals Trust Invest Trading of Mind. We hold ourselves accountable to these values. And we expect our clients to hold us to them too.

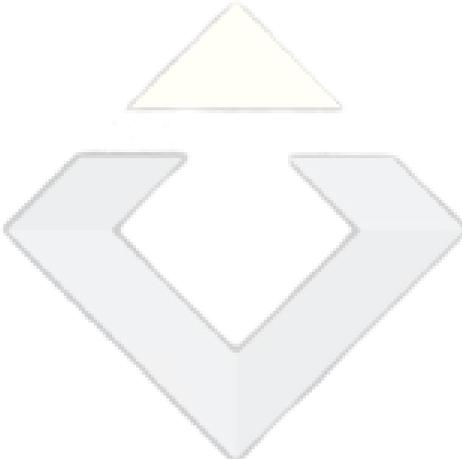

## HOW TO EARN WITH US

The model is simple: using human and mathematical models, we spot trade opportunities on commodities such as gold, natural gas, oil, agriculture, and so many others, as well as cryptocurrencies. Then the investments made by clients are distributed by quota into these assets, using artificial intelligence. The profit generated is distributed to investors

About Our  
**COMPANY**

with a valid investment plan, and according to the investment package enrolled in. Trade calls are backed by other stakes to bet the market flotation in order to avoid a loss to the clients as minimum as possible, where these returns are been done 7 times a week.

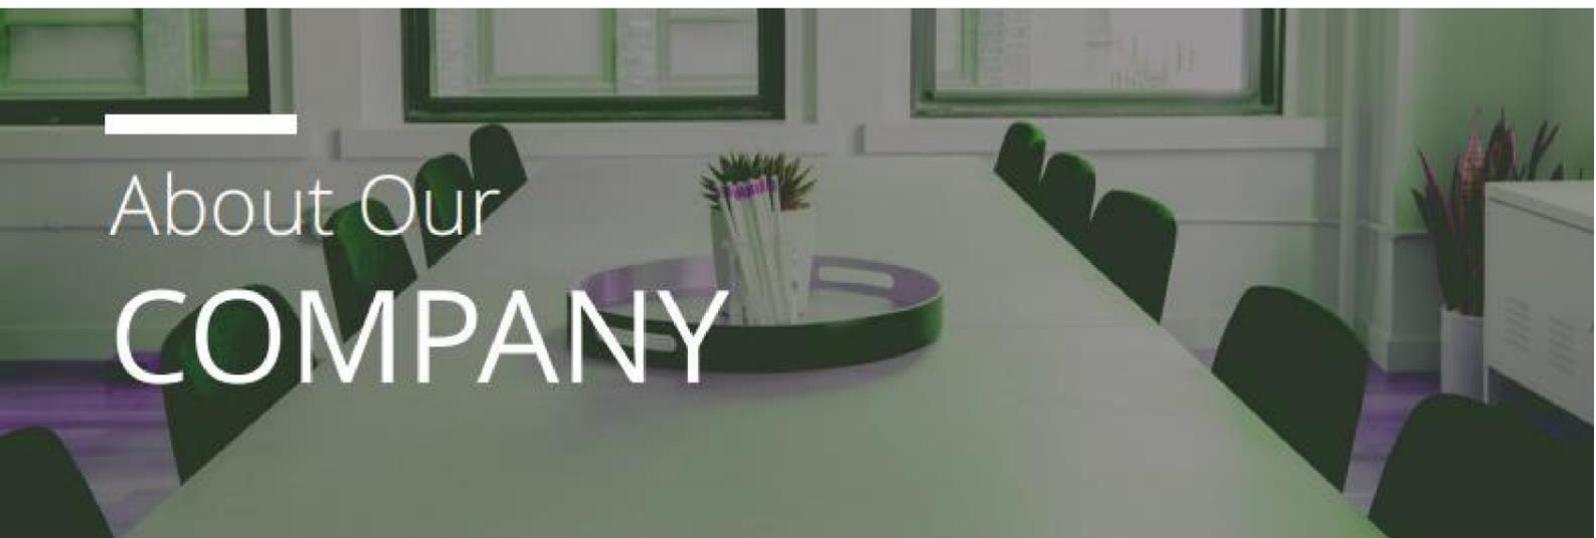

ZENIQ

## PROFIT GENERATING PRINCIPLES

We use a kind of margin known as PAMM (percent allocation management module) which makes sure these profits are always allocated. If any losses occur, it is managed by the company not its investor (thanks to our internal investment insurance policy). This means the investors always get their allocated profit. This is an apt example of a win-win approach for all clients.

Investors are meant to select a plan within sectors of investment where these generated profits are distributed based on what is invested (higher investment plans attract higher returns on investment), withdrawals are made weekly or monthly, and are paid out in cryptocurrencies (Bitcoin, Ethereum & Usdt).

The logo for ZENIQ, featuring the word "ZENIQ" in a stylized, outlined font. Above the text is a large, light-colored diamond shape with a smaller yellow triangle at its top point.A background image of a conference room with a long table, chairs, and windows. The text "About Our COMPANY" is overlaid on the image.

## PORTFOLIO ASSETS DISTRIBUTION

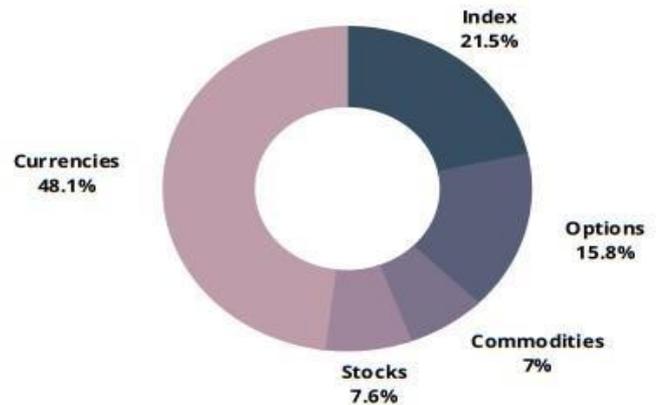

Identifying meaningful investment opportunities in the financial market is getting more challenging. Most investors go through a series of advice and still miss

out on the distribution of the ideal assets for a

profitable portfolio. So, we took the guess

work out of the way and put the work on our shoulders. We designed a portfolio structure that makes the investment both secure and profitable at the same time.

We identify and analyze emerging trends in the markets. Then we put together the market dynamics, regulations, and strategies that are constantly impacting the markets, in order to obtain the optimum output. Considering all these, we design investment classes to adapt to the client's goals at the profitable entry. That's why each investor feels like the only one we have. We make it all about the investor.

Our Portfolio  
**OVERVIEW**

## BENEFITS OF INVESTING WITH US

The benefits of trading with ZENIQGLOBALS include:

- Complete transparency of all transactions.
- Each investor is in control of his trading account.

Minimum deposit: \$300,000.00

Maximum deposit: \$2,000,000.00

Daily Return: 1.7%

Contracts: 91 days

Withdrawals are available instantly.

## RISK MANAGEMENT AND SECURITY OF FUNDS

Our first step towards risk management is the identification and assessment of the risks involved in our investment strategies, which in this case involves the following: loss of investment capital through mismanagement of funds, losses due to general market downtrend, losses due to cyber-attacks, and system failures. Upon successful identification and assessment, we employ the following strategies:

- Avoidance: we avoid mismanagement of funds by employing skilled traders with a minimum of six years of experience in the financial sector or at least three years in the stock exchange market.
- Reduction: we reduce losses due to general market downtrends by investing in commodities like Gold to ensure consistent profit generation.
- Sharing: sharing losses between regular investors and stakeholders minimizes the total percentage loss per investor, this ensures that we maintain the minimum achievable profit for every investment plan.
- Retention: we also budget for cases of cyber-attacks by mapping a significant percentage of the company's profit monthly for system maintenance and general security upgrade.

# ZENIQ

Risk Management and  
**FUNDS SECURITY**

## CONCLUSION

In conclusion, we intend to get to the top of the crypto investment market and maintain our position against all odds for as long as it's humanly possible. Our team of experts are constantly working towards the development of a new and advanced trading strategy for consistent guaranteed profits.
